**KCG**, a proponent of innovation in environmental commodity markets, has announced its incorporation in Abu Dhabi Global Market (ADGM).

KCG, a holding company, has a majority stake in Carbonmark DMCC, a blockchain-as-a-service platform operating within the Dubai Multi Commodities Centre, focusing on environmental commodity markets. Additionally, KCG has a corporate presence in Singapore, Japan and Central America (BVI).

KCG is committed to harnessing best-in-class digital technologies to develop solutions for environmental commodity markets, with a focus on carbon markets. The company's subsidiaries are dedicated to creating products and services that boost the interoperability and velocity of these critical markets, thereby benefiting people and the planet.

Chairman Giorgio Dona-Danioni shared his vision for the company's future in ADGM, saying, "The founders of KCG have a history of pioneering new technical solutions for environmental commodity markets. We are applying the wealth of knowledge and experience we have developed to be a force for change in the markets here in ADGM and globally."
